CREATEIT

As a passionate group of professionals with a love for Web and mobile technologies, we have been serving successfully our clients for the past 5 years.

Our 50+ developer team creates cutting-edge complex B2B and B2C web systems and apps as well as delivers top-notch direct outsourcing services.

We work in multiple frameworks and platforms including Sage/SAP/ZOHO but we are experts in any web bassed code platform
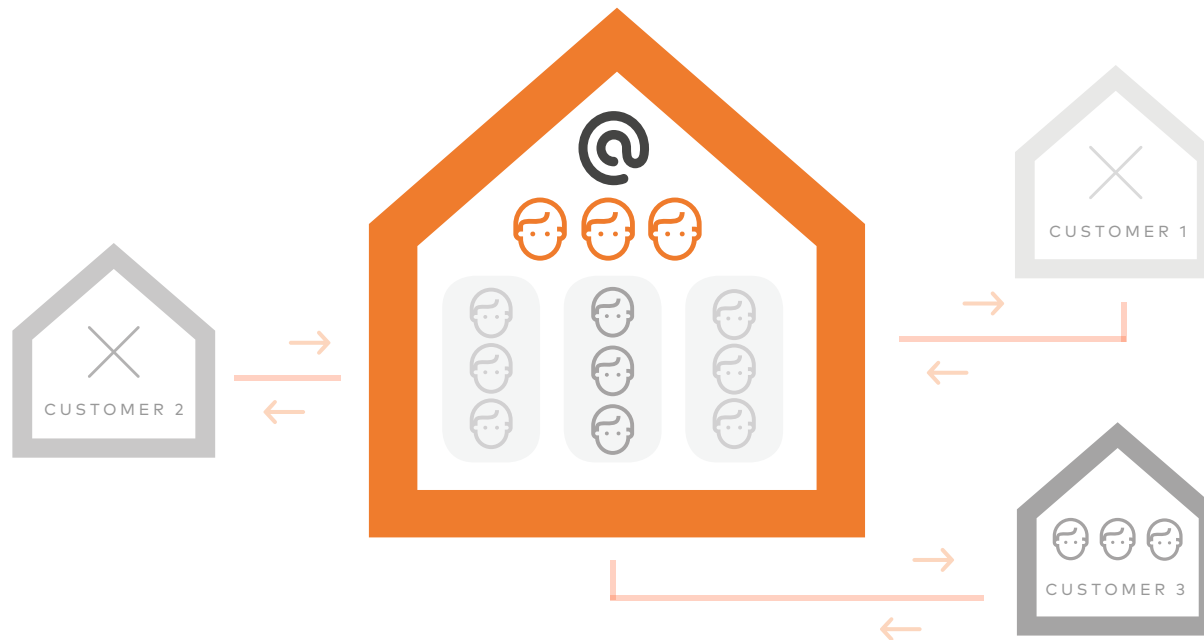

Fluent in English we offer services worldwide. Among others, in countries such as the United Kingdom, U.S.A., Africa and the Middle East

We are located in Blue Fin Building in the heart of London Concentrated on delivering durable web solutions of high integrity, we do not always try to be the cheapest. However, thanks to our location you will be surprised how reasonable our prices are.

WEB DEVELOPER OUTSOURCING

How it works

CUSTOMER 1

CUSTOMER 2

CUSTOMER 3

CREATEIT
Project Managers

DEVELOPERS OUTSOURCED TO CUSTOMER 1
(Customer 1 has his/her own developers)

DEVELOPERS OUTSOURCED TO CUSTOMER 2
(Customer 2 does not have his/her own developers)

DEVELOPERS OUTSOURCED TO CUSTOMER 3
(Customer 3 has his/her own developers)

1
From the createIT team we assign developer most suitable for your project.

2
The selected developers work exclusively for you. You manage, assign and acknowledge the tasks yourself.

3
We deal with matters related to HR and potential replacements.

4
You decide how long the cooperation should last. You can quickly and easily increase or decrease your HR resources.

General Advantages

No recruitment process

Expand your company's technology base without the need of conducting a tedious recruitment process.

HR stability

Avoid employee absence or resignation. We deal with the stability of your HR resources.

Cost optimization

Pay only for completed working hours and not the constant maintenance of your IT team. Quickly adjust the number of outsourced developers to ensure cost effectiveness.

WEB DEVELOPER OUTSOURCING

General Advantages

Quality code

Get the highest quality of created software ensured by our senior developers.
They offer continuous support to junior & mid devs.

In-house team

Open communication of our in–house team enables a flawless exchange of ideas & best-practices.
All under close supervision which results in high accurancy of our processes.

Proactivity

Pay only for completed working hours and not the constant maintenance of your IT team.
Quickly adjust the number of outsourced developers to ensure cost effectiveness.

WEB DEVELOPER OUTSOURCING

General Advantages

Multilingual team

We are fluent in English, French, Arabic, Russian and Polish. You can freely communicate with our managers or hired developers.

Flexible terms

You decide on
the contract's length:
— from a month to several years,
— part–time or full–time
employment.

The specialist & technology of your choice

We can provide you with specialists of diverse skills: developers of various technologies, project managers, testers or an entire dedicated team.
